

Submitting Images to SCCC Using JpegSizer Pro® V7.2

1. Open JpegSizer Pro program
Make sure “**SCCC**” is checked*
2. Check “**Email images after resizing**”
3. Click “**Choose images and resize**”
4. The “**Select Image Files**” box will open
Locate the folder where your images are
Select images for resizing:
Hold down **Ctrl** and click on each image
Release **Ctrl** and click on [Open]
5. The processing display will open and will show the progress of the processing.
6. When the processing is completed the “**Prepare Email Message**” panel will open*:
[Enter recipient - bill@ruting.us](mailto:bill@ruting.us)
Subject: Images for (month) DPI
Message Body: Who from
Make sure your images are listed in “**Attachments**”
Click on “**Send**”
Your email program should open to allow you to send the files.

*NOTES:

You must have first set up a “SCCC” profile; see web site on how to do this.

The first time you send files via JpegSizer email you will need to configure your email settings; follow the instructions in JpegSizer.

If you are having a problem, try using the JpegSizer “Help” first.
